# Using **AI** to **Automate** Scope 1, 2, 3
GHG Emission Reporting in the **US & EU**

Reports

Managing your carbon footprint manually is labor-intensive, error-prone, and lacks visibility as to your ability to comply with EPA, SEC & EU 525/2013 Green House Gas (GHG) reporting requirements.

Data

ThinkIQ automates data collection & modeling producing comprehensive carbon reporting following the GHG Protocol framework.

ThinkIQ

ThinkIQ offers critical insights to optimize your internal and external emission reduction efforts.
